Which situation applies to your course?

- This will be a newly proposed/created course
- This course exists but does not currently include experiential learning
- This course is already experiential but will be enhanced with funding support

Course title, course level, and course number (or proposed if new):

________________________________________________________________

Course Summary

________________________________________________________________

________________________________________________________________

________________________________________________________________

Who is the primary instructor for this course?

________________________________________________________________

Who would be/is a secondary instructor?

________________________________________________________________
Please list learning outcomes for the course

________________________________________________________________
________________________________________________________________
________________________________________________________________
________________________________________________________________
________________________________________________________________

Number of credit hours and course length (number of weeks, etc.) for course

________________________________________________________________

Course modality<br>

________________________________________________________________

What year and semester will the course next be offered?<br>

________________________________________________________________

What is the minimum and maximum enrollment as well as the expected enrollment?

________________________________________________________________

What type of experiential education is the course? (example: research, practicum, internship, service-learning, etc.)

________________________________________________________________
________________________________________________________________
________________________________________________________________
Please describe in what ways the course is experiential/applied learning (include definition and sample types).

__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________

What percent of the course do you estimate is experiential education? (You may consider the whole experiential education cycle - framing, application, reflection, and synthesis in your estimates).

__________________________________________________________________________

In what ways would this course increase access to experiential education for students, and/or increase the quality of experiential education that students in your department have access to?

__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________
How will the course be/is it integrated into the academic plan of study/program curriculum?

________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

Is this course (or will this course be) allowed to count for departmental major or minor requirements?

- Yes
- No

Display This Question:

If Is this course (or will this course be) allowed to count for departmental major or minor requirements... = Yes

If yes, which major or minor?

________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

Please describe who the target student audience is for this course and how it will be/is promoted/marketed to those students:

________________________________________________________________________
________________________________________________________________________
What are the biggest challenge points in developing or redeveloping the course?

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

What are the biggest challenge points in sustaining the course over time (after the first time it is offered)?

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

What have the barriers been to offering such a course in the past?

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________
What support would be most useful in course development?

________________________________________________________________
________________________________________________________________
________________________________________________________________
________________________________________________________________
________________________________________________________________
________________________________________________________________
________________________________________________________________
