

CAREER LEADERSHIP ACADEMY

An academic program comprised of weekly seminars, activities, and events.

HOW ARE STRENGTHS AND STUDENT LEADERSHIP COMPETENCIES USED?

Strengths are integrated into the curriculum through readings, assignments and classroom discussions. Students complete a Strengths-Based Team Workshop where they are asked to reflect on how talents are displayed and utilized. Strengths are used as a key component in topics such as networking, interviewing, and job searching.

PURPOSE AND GOALS:

By integrating Strengths and SLCs into our curriculum, CLA hopes to prepare student leaders to excel in their future endeavors, increase their understanding of self, and improve communication, interpersonal, problem-solving, and analytical skills.

RESULTS AND STUDENT FEEDBACK:

96% of students know their Strengths after completing CLA.

Student Quote - "CLA has shown me that I have individual strengths that employers are looking for. It showed me how to represent these skills and how to speak of my strengths in a transferable way."
